Iteration 4

Planning

In this document, we go show you how we planned to complete iteration 4. We display which use cases we selected for iteration 4, who the main assignee is as well as the due dates we selected, that best fit our timetables to complete this iteration as efficiently as possible.

Table of Contents

TABLE OF FIGURES:

1.) Document Introduction:

This document outlines our plan for iteration 4. It describes what each team member is mainly assigned to, which means that they ensure everyone's work is up to standard. As well as what use cases they were assigned. For this iteration everyone was assigned use cases and completed the work from the backend of the coding to the sequence diagram in the documentation.

2.) ITERATION 4 PLANNING:

2.1) Introduction:

In this section of the document, we will show you how we planned to complete iteration 4 and who was responsible for certain sections of the work.
